

A Note From Your Pet

Dear Human,

Please pick up after me! You may not realize this, but the bacteria in my poo is a leading cause of pollution in our Mojave River Watershed. I'd hate to be the reason our water gets wrecked, so I'll need your help to make me a more perfect pet.

- 1 Bring doggie-doo bags on every walk
- 2 Pack a portable water bowl so that I don't drink from the street or ground
- 3 Toss my poo in the trash
- 4 Use a nozzle at bath time to reduce runoff
- 5 Tell everyone that doggie doo-doo is a stormwater don't

Easy enough to be a good boy, right?

XoXo,

Your Pal

TAKE THE PLEDGE

The Mojave River Watershed's groundwater is the main source of water for many High Desert residents, plants and wildlife. It's up to us to keep it clean.
